

## Last chance to migrate off APIs

Hi,

Don't wait until the holiday rush - the time is now! eBay Partner Network will no longer support eBay's Finding API, Shopping API or Trading API, into the new year. The deadline to migrate off these APIs has come.

If you are a partner who does not depend on any of these three APIs, there is no action item required from you.

If you are a partner using any of these three APIs, we ask that you migrate off from these APIs as soon as possible. In addition to the [official developer documentation](#), the eBay Partner Network offers a [comprehensive guide](#) that:

- Lays out supported migration paths
- Shares common best practices.
- Answers FAQs

The eBay Developer Program will be providing support to developers through its Developer Support Team. Support will be available through the [current ticketing system](#). Note: It is critical to migrate off these APIs as soon as possible. The vetting process to grant you access to any new APIs will take an average of three weeks; the sooner you submit your request, the more time will remain for your actual migration.

Please flag this email as a reminder for you to take quick action. You can read more about migrating off of these APIs [here](#) and you can also check out recently released features [here](#).

Please feel free to [contact us](#) with any questions.

The eBay Partner Network team
