

Reminder to replace remaining links

[View in Browser](#)

The clock is ticking! As a reminder, eBay Partner Network has moved from rover-based tracking links to a new tracking link format, which complies with industry standards and fully supports Tracking Prevention Frameworks such as Apple Webkit [ITP](#), Mozilla Firefox [ETP](#), or Microsoft Edge [Tracking Prevention](#).

All ePN tools and widgets, eBay's Data Feeds and Browse APIs have automatically started serving new tracking links. All remaining rover-based links on your properties will need to be replaced with the new tracking links by Wednesday, March 31. Start converting links today with our helpful new [Link Conversion Tool](#), part of the Smart Share browser extension.

Read more about this change [here](#), and feel free to [contact us](#) with any questions.
