

Blue Skies Distribution / REVITALASH COSMETICS

We at Athena Cosmetics are committed to stopping the sale of counterfeit and “black market” RevitaLash® Cosmetics products. Our first priorities are, and have always been, customer safety and regulatory compliance. We recognize that customer safety and satisfaction are fundamental to our company’s continued success.

We Protect Our Intellectual Property

We have developed and hold a broad array of valuable intellectual property rights worldwide, including trademarks, trade names, service marks, label designs, logos, and copyrights, all of which embody the goodwill and reputation we have developed in the marketplace. Therefore, we carefully monitor and take every effort to protect our rights in these intellectual property assets in order to ensure that others do not misuse them.

Beware of Counterfeit and Tampered Products

We are aware of the persistent problem of unauthorized websites that are selling what look like RevitaLash® Cosmetics products. In this modern Internet age, it is not as difficult as it used to be for a scam artist to fake our logos and authorization seal to fool unsuspecting consumers. Many of the products sold on these websites have been opened, are not shrink-wrapped, come in damaged boxes (or no box at all), and lack our inventory control mechanisms. As such, these products could be counterfeit, or at the very least they have been tampered with. RevitaLash Cosmetics cannot guarantee the authenticity of any products sold via 3rd party sites, nor can we authenticate any products bought in this way. If you suspect you have purchased counterfeit or tampered product contact eBay Customer Support or antidiversion@revitalash.com

We Monitor eBay Auctions Daily

As a member of the eBay VeRO program, we monitor all eBay auctions which purport to sell “RevitaLash” products. Any auctions found to have impermissibly used our intellectual property, or which we believe feature counterfeit or tampered products, will be brought to the attention of eBay for further action.
