

Chiron Group SE

About Chiron Group SE

Chiron Group is a global operating company specialized in the field of metalworking and automation. Additive manufacturing forms the final core area of the Chiron Group expertise. The Chiron Group offers complete solutions that go beyond traditional machining methods. The focus here is on laser metal deposition technology. In the field of additive manufacturing Chiron's key products are laser metal 3D printers.

Chiron Group owns a vast international portfolio of patents, trademarks, copyrights, and other intellectual property rights.

Chiron Group has built up a significant reputation in its trademarks and products over the years and is determined to protect its intellectual property in the most effective way possible. Therefore, Chiron Group monitors websites offering counterfeits, unauthorized Chiron Group's products or the unfair use of its trademarks. Chiron will remove infringing product offers from the eBay and other platforms to protect its rights.

Chiron does not distribute its products via eBay or other C2B /B2B platforms but only directly or via fixed contract partners.

If you have any questions regarding our intellectual property policies, or if you would like to report a situation which you believe should be brought to our attention, please contact us at info@chiron-group.com.
