

# Chemsavers Inc.

Chemsavers, Inc. is a member of the eBay VeRO program and strictly enforces proper use of our intellectual property.

Our intellectual property, including trade names, trademarks, service marks, copyrighted or proprietary text and materials, photos, images, videos and logos are valuable and important assets to our business. Their use has a significant impact on our reputation and brand image.

Intellectual property laws require that we vigorously police the marketplace for unauthorized, infringing or counterfeit merchandise in order to protect our name and reputation and also to protect consumers from being confused into believing they are purchasing genuine products. To protect the integrity of our brand, we work hard to prevent the sale or resale of items that misuse or otherwise infringe our trademarks, copyrights or other proprietary rights. We will contact eBay about all listings that include the unauthorized use or infringement of our intellectual property. If an auction gives the slightest implication that the seller represents Chemsavers, Inc., or are authorized to sell our products, that will also be treated as infringement. Chemsavers is a national corporation that prides itself in the sales and sourcing of high quality chemicals. We distribute for two companies with small package chemicals as well as one of the world's largest manufacturers of solvents and alcohols based in the U.S.

Chemsavers is the legal owner and proprietor of our Chemsavers, Inc. name and logo and the legal owner of the description of the products as passed on to Chemsavers by contract from the manufacturer.

Chemsavers may request Ebay to remove any and all infringed content unless prior authorization has been granted in writing. Please note that Chemsavers sells strictly to end users and only offers bulk products to resellers with commercial addresses and with DOT certified staff.

Infringement upon these rights may result in legal action.
