

EXEL Products

Wholesale US Distributor for EXEL Products

We are a factory direct supplier of a number of products which include Pet Products, Poker Chips, generators, water pumps, industrial engines, atvs and motorcycles. Unlike most of the sellers on eBay we visit the factories in China on a regular basis to insure the continued quality, as well as having agents in China that are constantly monitoring production. We seek out new products to add to our line as well as finding products for other Sellers, who want the peace of mind in knowing someone will ensure they receive exactly what they order. EXEL is a registered trademark, no use of this brand name is allowed without the express written consent of Southwestern Products.
