

# Eagle Creek Enterprises - Tim Cox Fine Art

I am a professional artist and have been a member of the Cowboy Artists of America since 2007. Throughout my long career, I have allowed others to publish reproductions, and I personally have published reproductions of my original artwork. Additionally, images of my artwork have been published in advertisements for events, books, shows, etc.

Throughout my career, it has been my practice to file for and retain the copyrights on these reproductions and printed images of my original artwork, and also to retain the copyrights on the original artwork that I sell. Note: My original artworks include, but may not be limited to: drawings, paintings and sculpture.

I have worked extremely hard to establish a career in the competitive world of fine art. This is not a hobby. My artwork has been my single source of income and how I have supported myself and my family for over 40 years. By posting my policy here, I ask that my rights, both as an individual and as an artist be respected, and thank you in advance.
