

# Fossil Reproductions

At Fossil Reproductions our goal is to offer quality fossil replicas and casts that are affordable, artistically pleasing, scientifically accurate, and educational. Our products have been enjoyed by the individual collector and enthusiast and used in the class room to give a hands-on experience for children and adults. Our scale model sculptures are based on careful study of the original fossils and scientific publications on the specimens. Great care is taken to faithfully render the shape, proportions, and details of the original fossil.

## COPYRIGHT ISSUES

Unauthorized Duplication While everyone loves dinosaurs, a few sellers have made unauthorized copies of our sculptures and we have had to take action against them. These unauthorized copies are of poor quality, inferior materials, poorly and sloppily painted, and without any educational information. Don't settle for a poor copy of our beautiful sculptures. Such lousy duplicates are a waste of your money and an insult to our sculptors and artists. Fossil Reproductions is a member of eBay's VeRO program. We strictly enforce our intellectual property rights, including copyrights and trademarks against unauthorized use. The copyright is retained by each individual artist and is not transferred with purchase. Our distinctive original sculptures and item descriptions on our website and in our catalogs as well as all our educational materials are protected by copyright and not available for.
