High Island Health, LLC dba Aneros

High Island Health, LLC and its subsidiaries ("Aneros") is a member of eBay's Verified Rights Owner (VeRO) program. We respect the intellectual property of others and enforce the proper use of our intellectual property.

Since 2003, the Aneros Company has been dedicated to bringing our customers unique, effective sexual aids that promote health as well as pleasure, led by our patented line of hands-free Aneros Prostate Stimulators. As the company that created the market for Male G-Spot Stimulators, through years and research and development we have acquired a deep understanding of the male anatomy. The result? We design and produce the safest and most pleasurable prostate stimulators available today.

Every curve, every angle of each model contributes to a precise anatomical design which makes compelling and transcendent experiences like the Super-O possible. The hands-free design means that you can achieve these unique pleasures with products that work in harmony with your body's own movements.

Our pledge is to continue to deliver safe, innovative products to our customers, quickly and discreetly.

High Island Health, LLC and its subsidiaries ("Aneros") is a member of eBay's Verified Rights Owner (VeRO) program. We respect the intellectual property of others and enforce the proper use of our intellectual property.

Our intellectual property includes copyrighted material, such as photographic images and item descriptions that appear on our website and websites of our licensees.

Our intellectual property also includes trademarks, such as the registered federal marks ANEROS and ANEROS.COM.

The use of the Aneros trademark, photos and branding without approval from our legal department can result in legal costs on the seller's end due to not going through the proper channels to sell our products and becoming an Aneros partner.

When it comes to Aneros our product lines are one of a kind which is why we have patented our designs for both our prostate massagers and kegel exercisers.

Our patents, granted in the United States and around the world, demonstrate the innovation and creativity that has gone into the development of our unique product line.
