

Patmont Motor Werks / Go-Ped

"WE MAKE TRANSPORTATION FUN"™

Patmont Motor Werks is the global leader in fun, energy efficient, and portable transportation. Check out our web site www.goped.com, for more information on Go-Ped handcrafted gas, electric, self-powered and extreme scooters.

PATMONT MOTOR WERKS INTELLECTUAL PROPERTY-OUR TRADEMARKS, COPYRIGHTS AND PATENTS

We at Patmont Motor Werks are exceedingly diligent in our efforts to protect our Go-Ped brand name and product. Many auctions claim in their title or description that the scooters they are selling are Go-Peds or Peds even though they are not manufactured or authorized in any way by Patmont Motor Werks. This is misleading to the public and fosters customer confusion as to the origin of the scooter. These auctions will be cancelled based on misuse of our trademark. **This includes auctions that say like a Go-Ped, not a Go-Ped, better than Go-Ped and the like.** These actions are also against eBay policy as keyword spamming. This policy is further discussed at <http://pages.ebay.com/help/community/png-wordspam.html>. We will also terminate auctions which contain scooters that violate any of our many valuable patents or the well-known trade dress of the Go-Ped scooter. Patmont Motor Werks is a member of the VERO program and regularly monitors eBay for such violations.

As the **world leader in scooter transportation**, we use all efforts at our disposal to protect our intellectual property, which we consider to be one of our most valuable assets.
