

# Revelation Records

Revelation Records is an independent record label that has put out a lot of hardcore and related music. We have released records from Youth Of Today, Gorilla Biscuits, Farside, Sense Field, Rage Against the Machine, Judge, Texas Is The Reason, Inside Out and a lot more. You can find out more about the label and the bands we've put out by visiting our site at [RevelationRecords.com](http://RevelationRecords.com).

Revelation Records is the copyright owner of the recordings released on the label and some recordings that are not yet released. In most cases, live tapes, live videos, unauthorized records, unauthorized CDs and unauthorized copies of legitimate records or CDs are all considered bootlegs and are illegal to produce or sell. If you have any questions about the legality of something you want to sell that features a Revelation band, please feel free to email [webmaster@revhq.com](mailto:webmaster@revhq.com).
