

Rimblades

About Rimblades

Rimblades is the proud designer and manufacturer of innovative and patented alloy wheel protection solutions. Our products are crafted to safeguard wheels from damage while adding a stylish finish to vehicles. Operating globally, Rimblades is committed to delivering high-quality products that meet the needs of car enthusiasts and everyday drivers alike.

Our Intellectual Property

Rimblades holds intellectual property rights to protect our innovative designs and proprietary technologies. These include:

- **Patents:** Covering the unique design and functionality of our alloy wheel protectors.
- **Trademarks:** Protecting our brand names, logos, and product identifiers.
- **Copyrights:** Encompassing product descriptions, images, and other materials created by Rimblades.

Why Listings Are Removed

Listings are removed through the VeRO program when they infringe on Rimblades' intellectual property rights. Examples of such infringements include:

- Unauthorized use of Rimblades' trademarks, logos, or product images.
- Selling counterfeit or imitation products that violate Rimblades' patents or copyrights.
- Misrepresentation of products as genuine Rimblades items.

Important Note

This page is intended to provide information about Rimblades' intellectual property and the reasons for listing removals.
