

Rocket Science Institute

The Rocket Science Institute is a non-profit educational and scientific organization, supporting "amateur" experimental rocket science, engineering, and technology. Your eBay purchases contribute to our educational programs.

The Rocket Science Institute is registered in eBay's Verified Rights Owner's Program ("VeRO Program"), a special service dedicated to serving the needs of rights owners and their representatives.

We are the copyright owners to several books and reference resources, including "A Safety Manual for Experimental Rocket Scientists," "Advanced Nitrate-Type Solid Propellants," and other titles. We also claim rights to publish other books, including Nitro-Explosives, the 1922 edition of the Blasters Handbook, and other titles.
