Why were my eBay listings/auctions removed at ScanTool.net's request?

Counterfeits: The sale of counterfeit merchandise is prohibited on eBay and exposes the seller to both criminal and civil penalties. Sale of counterfeit ScanTool.net products will result in removal of the auction, and could include a subsequent enforcement action from ScanTool.net against the seller. Ignorance of the law or innocent intent is not a defense to violating the intellectual property rights of others. Additionally, the fact that a product is being sold on eBay provides no guarantee that it is a genuine Brand product.

Trademarks: The trademark OBDLink® is registered in the United States by ScanTool.net, LLC. Any use of ScanTool.net's trademarks or service marks without the express written permission from ScanTool.net may result in an infringement claim and a possible lawsuit.

Copyright: You may not use any photographs or text from any of our websites, brochures, catalogs or advertisements. You may not advertise in any way as an authorized reseller of our branded products.

Feeling singled out? While there may be similar listings that have been or are currently listed on eBay, this does not mean that they're acceptable. We take trademark and copyright infringement and counterfeit products very seriously, and work to ensure unauthorized use of our intellectual property are removed from eBay, although it is difficult to remove every unauthorized item.
