

TMH Technology

TMH Technology specializes in LED light for Automotive in addition to Boat and Mining. Since its origination, TMH Technology has successfully secured numerous trademarks used in connection with its Automotive business. TMH Technology is a member of the eBay VeRO Program.

As an eBay VeRO Program member, TMH Technology reviews items for sale on eBay daily & seeks to prevent customer confusion and deceptive practices of others by enforcing the eBay VeRO policies with regard to the use of TMH Technology intellectual property on eBay. This About Me Page is provided to educate eBay users about auctions that violate eBay's VeRO policies. TMH Technology works hard to maintain and build the "TMH" brand and, as such, we must aggressively protect our intellectual property rights from infringers.

TMH Technology sells to authorized dealers only and does not sell second quality products or damaged goods. TMH Technology strictly controls all design, manufacturing, distribution and advertising to ensure the highest level of quality products.

In addition, the use of the "TMH" trademark in connection with goods not made by or under the authority of "TMH" is strictly prohibited.

Although "TMH" works to ensure that all unauthorized uses of its intellectual property are removed from eBay, it is difficult to identify and remove every unauthorized item. The fact that others are selling products that infringe "TMH" intellectual property rights does not give others the right to do so. As a seller, you have the responsibility to ensure that your auctions do not violate the intellectual property rights of another. Ignorance of an intellectual property violation is no excuse. Before commencing an eBay auction, you must take affirmative steps to ensure that your auction does not violate the rights of any copyright or trademark holder.

If you have questions concerning TMH Technology's intellectual property rights, please send correspondence to tmhtechnology@yahoo.com and provide us with the eBay item number, which appears on the message sent to you from eBay.
