

## ABOUT JORESTECH®

For three generations, JORESTECH® has worked fervidly to provide affordable, high quality packaging solutions for most end-of-production-line applications. Today, we package a myriad of products for startups and multinationals alike, including foods of all types and presentations, medical equipment, pharmaceuticals, beverages, chemicals, pet food, and much more. We provide parts, accessories and consumables to help our clients keep their operations running smoothly and consistently. Driven by a passion for service and innovation, and the core purpose of leveraging clients' technology to make their businesses more successful, we will continue the tradition of excellence, world-class service, and expertise. Due to the spread of unreliable sellers and counterfeit listings in the market, we firmly believe that it is our job to protect our customers, brand, and reputation.

JORESTECH® continues to grow and adapt to the needs of today's world, now offering solutions for material handling, sports, general safety, hobbies, and personal protection as well. Each product we sell goes through a strict set of quality control standards - from the factory to the moment in which each individual item is tested and packaged for shipping. Furthermore, our safety and personal protection equipment is built and tested to comply with leading national safety practices, offering the highest quality of protection.

As a family-owned U.S. based company with a lengthy tradition of service to industry and commerce, we know the importance of cultivating long-term, professional relationships with our customers. That is why we would like to work diligently to protect our brand's integrity. This involves the registration and enforcement of our patents, trademarks, copyrighted materials, and other intellectual property that we may possess. Consequently, JORESTECH® has decided to be an active member of the eBay VeRO program in order to combat the misuse or unauthorized use of its trademarks, copyrighted material, or any other intellectual property. Accordingly, we will report all infringing listings through eBay's VeRO program to protect these valuable rights.

The following guide has been developed to help ensure that eBay users do not infringe upon the intellectual properties of JORESTECH®. If you are a seller whose listing has been removed, this may be why:

- 1- Copyright Infringement:** JORESTECH®'s copyrighted materials include images, texts, infographics, videos, and more. A person using any copyrighted materials without prior authorization may be breaching JORESTECH®'s intellectual property rights. Any listing using JORESTECH®'s copyrighted materials erroneously will be reported and taken down for copyright violations.
- 2- Trademark Infringement:** Any listing offering unauthentic JORESTECH® products, or using JORESTECH®'s protected trademarks without authorization will be reported and taken down.
- 3- Unauthorized Seller:** Any eBay user that falsely represents themselves as an authorized seller of JORESTECH® products will be subject to penalizations.

To report breaching of JORESTECH®'s intellectual property rights, please email us at:
