Versah owns copyrights in its product, packaging and collateral materials that protect original works including:

- literary works (including but not limited to instructions for use, product literature, advertising, website content, and the like)
- pictorial, graphic, and sculptural works (including but not limited to non-functional and/or aesthetic aspects of product configurations, packaging, product depictions, advertising, product arrangements, photographs, reference guides and the like)
- audiovisual works (including but not limited to demonstration and training videos and literature)
- sound recordings

As a member of the VeRO Program, Versah reviews items for sale on eBay daily. Versah seeks to prevent customer confusion and deceptive sales of products that violate our trademarks, copyrights and patents. We work hard to maintain and build a trustworthy brand for the professional medical

community and therefore, we must zealously protect our intellectual property rights from infringers.

Although Versah works to ensure that all unauthorized uses of its intellectual property are removed from eBay, it is difficult to identify and remove every unauthorized item. The fact that one person may be selling product that infringes our intellectual property rights does not give others the right to do so. As a seller, you have the responsibility to ensure that your auctions do not violate Versah's intellectual property rights.

If you have any questions concerning Versah LLC's intellectual property rights, please contact us at infringement@Versah.com.

Frequently Asked Questions:

Q: Why was my auction removed?

A: Your eBay auction may have been removed by eBay because we believe that the item being sold was counterfeit and/or infringes on Versah intellectual property.

Q: How did Versah determine that the goods in my auction were counterfeit and/or infringing intellectual property rights?

A: Due to the nature of eBay, we must make our decisions based on the information provided in your auction. Unfortunately, we do not disclose the specific ways in which we identify counterfeit products so the information cannot be used by counterfeiters to further produce fake products.

Q: Why was my auction singled out? I see other auctions selling similar items!

A: We work earnestly to ensure that auctions offering infringing goods or using infringing subject matter are removed from eBay. Simply because you view another listing for a product that is similar to yours does not mean they have permission to infringe. If you believe another listing remains "unfairly" on eBay, please notify us so we may investigate and take appropriate measures.
