

WristWidget®

The WRISTWIDGET was invented by Wendy Medeiros, OTR, CHT (retired 2015). Since 2006, the WRISTWIDGET has touched over 500,000 wrists globally. Our family makes every WRISTWIDGET with special care. We take pride in our customer service and our understanding of the fine details of the wrist. Wendy's experience as an Occupational Therapist, and Certified Hand Therapist gives her great insight into this injury. Over the years, Wendy has articulated an effective protocol for treating injuries of the TFCC. Wendy is heavily involved in research around the globe and has collected data on thousands of cases. This injury is poorly understood but we know that it can heal properly without surgery.

WRISTWIDGET strictly controls all design, manufacturing, distribution and advertising to ensure the highest level of quality products, highest degree of safety to our patients, and highest level of precision in our process.

VeRO

WRISTWIDGET is a member of the eBay VeRO program and strictly enforces proper use of our intellectual property. Our intellectual property, including trade names, trademarks, service marks, copyrighted or proprietary text and materials, photos, images, videos and logos are valuable and important assets to our business. Their use has a great impact on our reputation and brand image.

Intellectual property laws require that we vigorously police the marketplace for unauthorized, infringing or counterfeit merchandise in order to protect our name and reputation and also to protect consumers from being confused into believing they are purchasing genuine and up-to-date products.

To protect the integrity of our brand, we work hard to prevent the sale or resale of items that misuse or otherwise infringe our trademarks, copyrights or other proprietary rights. We will contact eBay about all listings that include the unauthorized use or infringement of our intellectual property. We police the use of our trademarks, copyrights and other proprietary rights and act to stop any unauthorized,

misleading or unlawful uses to protect the value of our intellectual property and brand name.

The care and attention given to our customers and the safety, and healing of the wrist is our utmost concern. Unauthorized distribution of the WristWidget could cause harm to the buyer.

TRADEMARKS AND COPYRIGHTS

Our intellectual property, including trade names, trademarks, service marks, copyrighted or proprietary materials, photos, images, and logos are valuable and important assets to our business.

If images, logos or text are used directly from our website, <https://wristwidget.com>, our literature or any other proprietary materials, we consider that an infringement.

DILLIGENCE

Although WRISTWIDGET works hard to ensure that all unauthorized uses of its intellectual property are removed from eBay, it is difficult to identify and remove every unauthorized item. The fact that others are selling products that infringe upon the WRISTWIDGET **intellectual** property rights does not give others the right to do so.

As a seller, you have the responsibility to ensure that your auctions do not violate the intellectual property rights of another. Ignorance of an intellectual property violation is no excuse. Before commencing an eBay auction, you must take affirmative steps to ensure that your auction does not violate the rights of any copyright or trademark holder.

CONTACT

If you have questions, you may contact us at: info@wristwidget.com.

Please include your contact information and the item listing ID if relevant to the subject of your email.
