

#### About Yamaha:

Yamaha is the world's premier musical instrument and audio brand. We continue to refine legendary products and design innovative, new ones, so anyone can MAKE WAVES.

The Yamaha name and trademarks are synonymous with top quality, innovation, and customer satisfaction. Yamaha strictly controls the distribution of Yamaha® brand products, and thus the right to use the Yamaha name, or Yamaha's trademarks, including our distinctive typeface and the tuning fork design, in connection with the sale of Yamaha® products is likewise restricted. Yamaha's warranty is available only to the consumer who purchases directly from an authorized retailer in a transaction that, itself, is authorized by Yamaha's Dealer Agreement (which, for certain products, may include purchased on eBay only through "buy-it-now" pricing). In addition, Yamaha is the owner of the copyrights in all pictures, text and graphics on the Yamaha website. Yamaha is aware that unauthorized sellers often promote the sale of Yamaha® products by unlawfully copying some or all of these protected materials. Again, such copying is strictly prohibited by federal law, and will not be tolerated by Yamaha.
