

We want to continue to encourage repair and reuse on a grassroots and global level, but must diligently ensure that our intellectual property is not misused. To maintain the value of our brand and the goodwill of our customers, iFixit operates a monitoring and enforcement program to defend our intellectual property against unauthorized use.

COPYRIGHTS

iFixit content, including photos, videos, and text, is licensed under the Creative Commons BY-NC-SA 3.0 license, which does not allow commercial use unless we have granted specific permission. Please read our Content Licensing Policy for all the details.

This means you may not use in your listing any photographs from iFixit guides or product pages, screenshots from our videos, descriptions from our packaging, or any other iFixit content, without explicit authorization. iFixit only allows the use of our copyrighted images and text by authorized resellers in approved sales channels.

We will ask eBay to take down any listing that infringes our copyrights. If you believe your listing was removed in error, please contact your iFixit account representative directly.

TRADEMARKS and TRADE DRESS

Our trademarks and trade dress allow consumers to recognize the iFixit brand and buy with confidence. iFixit owns trademarks including “IFIXIT”, “PRO TECH”, “IOPENER”, “JIMMY”, “REPAIR IS NOBLE”, the x-logo, and the fist logo. Our products and packaging feature a distinctive blue/black color scheme.

The use of any iFixit trademark or trade dress in connection with goods not made by or under the authority of iFixit is strictly prohibited, and we will ask eBay to take down infringing listings.

PATENTS and DESIGNS

iFixit's innovative tool designers have invented products including the Magnetic Mat, 64-bit driver kit, Pro Tech toolkit, Essential Electronics kit, Halberd spudger, Jimmy, various driver handles and more, for which patents are pending and designs are registered.

Unfortunately, some unscrupulous sellers offer cheap knockoffs of these products that are not authorized by iFixit, do not meet our high quality standards, and are not covered by our lifetime warranty, but which resemble our products enough to confuse and mislead customers about their source. We strive to have these inferior copies removed from the marketplace.
